

Solar battery and panels British Virgin Islands

A TEC BVI facilitates the transition to renewable energy in the British Virgin Islands and the wider Caribbean region. We are local leaders and pioneers in the development of the micro-grid energy production field. Solar energy in BVI. ...

Solar panels, battery generators, and inverters are all essential components of renewable energy systems. Solynk VI aims to provide high-quality, reliable products that help individuals and businesses make good use of clean and sustainable energy sources.

BVI Solar's choice of solar battery storage systems are the Enphase Encharge Battery systems. These units are built with the SAFEST materials available and designed to provide energy during high peak times of day as well as in the event of a grid outage.

We specialize in hybrid energy systems combining solar, wind, battery, and diesel power to create the lowest cost of energy for our clients. aTec has installed and maintains the vast majority of renewable energy systems in the BVI, including systems Oil Nut Bay, Cooper Island, Belamy Cay, and Three Private Islands in the North Sound.
