

## Solar companies in uk Belize

Does Belize use solar power?

Belize uses solar power on a smaller scale, with the Government having installed solar micro-grids and solar-powered streetlights in rural communities not yet connected to the national grid. The Government of Belize, along with Belize Electricity Limited (BEL), intends to launch a pilot project introducing electric vehicles.

Will Belize Electricity compensate you for excess solar energy?

The hope is that through regulations, Belize Electricity Ltd will have to compensate you for excess solar energy flowing to the grid during the day and off-set it against the electricity you are drawing from the grid at night; however, the reality today is the opposite.

Will the government of Belize invest in solar energy?

The Government of Belize intends to encourage investment in utility solar-energy facilities. However, it has not yet publicly announced a request for proposals. On a smaller scale, the Government of Belize has installed solar micro-grids and solar-powered streetlights in rural communities not yet connected to the national grid.

Who owns Belize Electricity Limited (BEL)?

95% by 2030 Belize Electricity Limited (BEL) distributes electricity throughout the country. It is owned by the government of Belize (70.2%), the Social Security Board (26.9%), and approximately 1,500 shareholders (2.9%) and is regulated by the Public Utilities Commission (PUC).
