

Maracaibo, next to the lake of the same name and the capital of Zulia, one of the regions hardest hit by the electricity crisis in Venezuela, is incubating a citizen initiative so that homes could be equipped with solar panels.

A 1.1-megawatt, diesel-solar hybrid project at Los Roques in Venezuela -- touted to be the largest of the country -- has been successfully operating on Yingli's panels since May. The entire operation of the plant is being powered by Yingli's panels.

En Soler Venezuela creemos en la grandeza de nuestro pa s y la gente que produce, por ende nos enfocamos en el aprovechamiento de las energ as que nos regala la naturaleza para resolver todos los problemas energ ticos que tengan nuestro pa s.

A solar generator is a portable generator that usually works along with solar panels. It typically acts as an automatic backup battery to power your home and your household appliances and/or electronic devices when you run out of electricity due to power outages.
