

What is Chile's largest solar power plant?

On 8 July 2024, Chile's largest solar power plant, CEME 1, was inaugurated in an activity led by national authorities and in which participated key stakeholders of the energy sector. CEME 1 is a 480 MW solar plant which was built and will be operated by Generadora Metropolitana, a joint venture between EDF and the Chilean company AME.

Where is a 480 MW solar plant being built in Chile?

From pv magazine Latam PowerChina Chile, Renewable Energy - a unit of energy and infrastructure developer PowerChina - has finished building a 480 MW solar plant in Mar&#237;a Elena, in Chile's Antofagasta region. Claudio Araya Aguilar, the company's head of human resources and labor relations, announced the plans on LinkedIn.

What is Chile's largest solar farm?

Claudio Araya Aguilar, the company's head of human resources and labor relations, announced the plans on LinkedIn. He said that the facility he manages is now Chile's largest operational solar farm. The company built the plant with 882,720 panels provided by an undisclosed manufacturer, on a plot of land spanning 435 hectares.

Why is solar power important in Chile?

Solar power in Chile is an increasingly important source of energy. Total installed photovoltaic (PV) capacity in Chile reached 8.36 GW in 2023. Solar energy provided 19.9% of national electricity generation in Chile in 2023, compared to less than 0.1% in 2013.

When did SolarPack start supplying power to Chile?

In March 2020 PV Magazine reported that Solarpack had begun providing power on 2 March 2020, to the Chilean grid from its 123 MW Granja project, 10 months ahead of the contracted date of 1 January 2021. With that, Solarpack raised its total operating capacity in Chile at the time to 181 MW.

Repsol Ibere&#243;lica Renovables Chile, a company owned 50% each by Repsol and the Ibere&#243;lica Renovables Group, has started producing electricity into the grid from its first joint solar project in the Andean country with the start-up of the first phase of the Elena photovoltaic plant, which will have a total installed capacity of up to 596 MW.
