With decades of experience in the industry, our team of experienced managers, skilled engineers and technicians are committed to providing innovative and cost-effective solutions tailored to meet the unique needs of each client.

Solar photovoltaic (solar PV) systems are gaining popularity globally and likewise for Fiji. Globally, the price of solar PV has dramatically decreased over the last decade, resulting in an increase in new solar PV installation for electricity generation. Fiji's solar PV generation on grid was nil before 2010.

In May 2002 Clay Energy commissioned the first off-grid solar base station power system for Vodafone Fiji, which led to the rollout of these power systems to six mobile operators in the region. Clay Energy's first PV grid-connect system (18kW) was installed and commissioned in 2008, being the first in the region.
