

Solar panel deployment Bermuda

How can solar panels be used in Bermuda?

Deploy solar panels in discrete locations to meet Bermuda Government and satisfy listed building planning regulations. Optimize available ground space and create economies of scale while effectively addressing aesthetic considerations. Construct a dedicated facility designed for solar installation that doubles as a shade provider or carport.

Who is Bermuda Engineering Company Limited?

Bermuda Engineering Company Limited was founded in 1935 by Gordon Hamilton Burland, a Bermudian renewable energy pioneer and engineer. Back then, he built the first clean energy microgrid in Bermuda and demonstrated bold energy leadership for his time. In 2010 the company was reinvigorated and has been operating as BE Solar since.

Do solar panels withstand hurricane-force winds?

We understand the challenges of designing solar systems in a salty, corrosive climate. We prioritize sourcing smart technology and materials to guarantee durability and reliability. Our solar panels withstand hurricane-force winds, are backed by a 30-year energy production guarantee and paired with Enphase IQ microinverters.

BE Solar offers the best in solar electricity systems for Bermuda's harsh climate. We carry modular, completely integrated systems that are designed to expand with your growing needs or repair and replace over time.

The energy is generated directly from sunlight using specially built solar photovoltaic systems that constitute an inverter, mounting frame, cable and solar photovoltaic panels. The growing number of people embracing solar power in Bermuda and other countries are enticed by the many benefits it offers.

Following an intense, transparent, and inclusive selection process, in June 2018, Saturn Solar Bermuda 1 Ltd. was awarded the contract to build a 6-megawatt Solar Photovoltaic Plant. And now, almost three and a half years later, Bermuda has reached the historic milestone of having its first utility-scale solar power facility on "The Finger ...

Bermuda's sustainability and renewable energy strategy have us positioned to become a regional leader in this arena. Led by the Ministry of Home Affairs, the Bermuda Government continues to encourage the adoption of solar technologies and energy efficiency.

Power up your Bermudian paradise with BE Solar: Bermuda's leading energy solutions provider, empowers you to embrace clean, sustainable power. We expertly design, sell, and install premium solar panels, reliable batteries, and cutting-edge EV ...

Solar panel deployment Bermuda

Our experienced team designs a customized solar solution that aligns with your energy requirements and budget. We offer a range of solar products, including Solar Power Generators, Direct Current Refrigerators, Direct Current Water Pumps, Portable Solar Panels, Fixed Solar Panels, and Sun Tracking Solar Panel mounts.

The energy is generated directly from sunlight using specially built solar photovoltaic systems that constitute an inverter, mounting frame, cable and solar photovoltaic panels. The growing number of people embracing solar ...

By partnering with Maxeon as their exclusive dealer in Bermuda, AES is the only solar company on island equipped to install the world's most durable and efficient panels. Our partnership with Maxeon allows us to maximizing savings and the ...

By partnering with Maxeon as their exclusive dealer in Bermuda, AES is the only solar company on island equipped to install the world's most durable and efficient panels. Our partnership with Maxeon allows us to maximizing savings and the return on investment for our customers.

BE Solar partnered with Aeolus Capital in 2020 to deploy a 38 panel system to help WindReach reduce their operating costs at their facility in Warwick, Bermuda. BE Solar was later hired by the Board of Trustees to install another phase of solar energy on the adult day care centre.
