

The plant in Chile will have the single largest rooftop surface in the country, with 6,500 photovoltaic panels, 57 investors, 150 meters of carports and a charging station for electric vehicles. With this alliance, we are demonstrating that renewable energies are an economic and environmental solution, both for industry and for Latin American ...

Besides, solar panels can be mounted on asphalt shingles, sheet metal, tile and any other type of substrate, both ideal for flat and sloped roofs. However, before your installer sets up your solar panels on your home's roof, they would assess first the quality and current condition of your roof to avoid future problems.

If a small turn-key rooftop PV system costs more than double the price in Argentina and Chile (\$1,750/kW) than in neighbor Brazil (\$800/kW) or across the world in distant Australia (\$700/W), and...
