

Solar system and panels Vanuatu

What is Vanuatu's solar power project?

The Government of Vanuatu has set a target of 65 percent power generation from renewable energy by 2020 to increase energy security and fight climate change. With this project, 17,000 households throughout Vanuatu will be supported to access non grid, renewable electricity through solar.

How can Etech solar help Vanuatu?

The sun is a powerful source of renewable energy. We can harness that energy to create a sustainable future in Vanuatu and the world. eTech Solar is accelerating the adoption of quality yet affordable solar technology across Vanuatu to conserve our environment and provide an environmentally friendly and sustainable power supply.

Why should you go solar in Vanuatu?

In an era of climate change and unsustainable environmental practices, by embracing solar power Vanuatu can forge ahead with providing affordable, clean energy for all its people. More than ever, a great time to go solar!! Reduce your electricity costs.

How many islands are in Vanuatu?

Vanuatu is an archipelago consisting of 82 islands, with 65 inhabited. With the remoteness of the islands and limited access to centralised utilities, PCS also offers self-supporting products suitable for the Vanuatu environment, including solar showers, hand spears, personal solar lighting and Lifestraw water filters.

Small solar panels: 50W and 100W panels. Standard solar panels: 200W, 250W, 300W, 350W, 500W panels. There are a lot of in-between power ratings like 265W, for example. Big solar panel system: 1kW, 4kW, 5kW, 10kW system. These include several solar panels connected together in a system (2 - 50 solar panels).
