

What is solar energy used for in Uganda?

Solar energy is used to generate electricity, heat water, and provide lighting in Uganda. It can also be used to power homes, hospitals, schools, and businesses. Solar energy is an ideal choice for rural areas in Uganda where access to electricity is limited.

Is Uganda a good place to invest in solar power?

Despite solar capacity of just 7% in the country, Uganda's eight hours of sunshine per day represents huge potential for solar power's development. Attracting investment is key. As part of efforts to scale up solar PV investment, the government of Uganda introduced model contracts in their investment guides.

How can Uganda scale up solar PV investment?

As part of efforts to scale up solar PV investment, the government of Uganda introduced model contracts in their investment guides. Additionally, IRENA, the Terrawatt Initiative, and leading international law firms also supported Uganda by drafting simplified and standardised templates for solar PV documents that are publicly available.

Where is Tororo Solar North located?

Tororo Solar North is located in the eastern region of Uganda (240 km east of Uganda's capital Kampala). This solar power plant has 32,240 photovoltaic panels over 14 hectares. Zero accidents during construction and subsequent operations. A 20-year Power Purchase Agreement. Capacity of 10MWp.

Who funded Tororo Solar North?

Tororo Solar North obtained funding from Financierings-Maatschappij voor Ontwikkelingslanden (FMO) to cover the US\$14.7 million construction costs. FMO syndicated 50% of the debt to the Emerging Africa Infrastructure Fund (EAIF) through a Participation Agreement.

Kampala, Uganda | THE INDEPENDENT & URN | TotalEnergies EP Uganda is to install 120 Megawatts of Solar Photovoltaic (PV) technology in selected parts of the country. This is a result of an agreement ...

Global major TotalEnergies, through its exploration and production arm in Uganda, has signed a Memorandum of Understanding (MoU) with the Ministry of Energy and Mineral Resources, Uganda for the two parties ...

We draw on field visits to three solar mini-grids with contrasting performances, to Uganda's largest 20 MW solar plant, through dozens of villages, and on meetings with the ...

Kampala, November 4th, 2022 - TotalEnergies EP Uganda has today signed a Solar project agreement with the Government of Uganda through the Ministry of Energy and Mineral ...

The opportunities and challenges of solar PV installations at different scales, from utility to community to household, in increasing electricity access and facilitating a just ...

Despite solar capacity of just 7% in the country, Uganda's eight hours of sunshine per day represents huge potential for solar power's development. Attracting investment is key. As part of efforts to scale up solar ...

Kampala, November 4th, 2022 - TotalEnergies EP Uganda has today signed a Solar project agreement with the Government of Uganda through the Ministry of Energy and Mineral Development for the possible deployment of 120 MW of ...

The 24 MWp Solar PV project is being implemented by Ituka West Nile Uganda Limited, a project company registered in Uganda and fully owned by AMEA Power. The project is located on a 52-hectare site in ...

SummaryLocationOverviewDevelopersConstruction costs, funding, and commissioningSee alsoExternal linksThe Soroti Power Station is a 10 MW (13,000 hp) solar power plant in Uganda. It was the largest grid-connected, "privately-funded solar power plant at opuyo, soroti district in uganda, outside of South Africa" at its commissioning and until the Pilot Solar Power Plant (20MW) of The Xsabo Group in Kabulasoke (Kabulasoke Solar Power Station) in Central Uganda was completed and commissioned in January 2019.
