

Solarplay power station Malta

Can the solarplay power station be charged with a third-party solar panel?

A: The SolarPlay power station can be charged with a third-party brand solar panel. You must match the plug size and input voltage of the SolarPlay power station you want to charge. For example, the third-party solar panel for the SolarPlay Q2501 should have the following specifications:

What are solarplay portable power stations?

SolarPlay portable power stations are high-performance products, developed by our dedicated production plant and scientific researchers. SolarPlay has reliable products for outdoor adventures and backup power.

Does solarplay work with a generator?

SolarPlay power station is compatible with AC adapters and solar panels (11.5V to 48V, max. 500W), car cigarette sockets (12V/24V), and generators. We recommend using the Solarplay solar panel 200W with it. The built-in battery uses a lithium iron phosphate battery (LiFePO₄) that lasts 15 years with over 3500 charge/discharge cycles.

How much power does the solarplay portable power supply have?

[Adjustable input power and convenient to carry] The Solarplay portable power supply offers five adjustable input power levels: 300W, 500W, 700W, 900W, and 1100W. It can be charged according to the usage environment and charging needs, ensuring optimal performance.

What appliances can a solarplay power supply work with?

The device can be used with most electrical appliances with an output of 2000W, including electric blankets, laptops, hair dryers, electric kettles, and microwave ovens. [Adjustable input power and convenient to carry] The Solarplay portable power supply offers five adjustable input power levels: 300W, 500W, 700W, 900W, and 1100W.

How long does solarplay take to charge?

[Fully charged in 1.5 hours with dual charging] SolarPlay's technology enables dual charging, allowing the device to be fully charged in approximately 1.5 hours despite its large capacity. It can be fully charged in approximately 2 hours at 1100W, which is much faster than other products in the market.
