

Solarus smart energy solutions Barbados

How does Solarus work?

Solarus designs one-stop integrated hot water and energy solutions that are customized to match your energy demand profile. Solarus solutions collect up to 4 times more total energy from the same (roof) area, over any PV installation.

Who is Solarus?

Solarus, founded in 2020 by three solar energy visionaries, is focused on serving industrial and commercial customers across the world, with a constant demand for hot water, and a limited solar collection area.

Why is Solarus a competitive advantage?

Around one and a half hours of sunlight on our earth covers the entire yearly need for energy in the world. Hence, we have no lack of energy on earth, it is just a matter of harvesting the sunlight efficiently and that is the competitive advantage of Solarus.

Why should you choose Solarus?

Solarus solutions collect up to 4 times more total energy from the same (roof) area, over any PV installation. Solarus turn-key projects deliver the lowest per-kilowatt energy costs over any competition on limited (roof) space, guaranteed! 4x more CO₂ reductions and 3x more profitable vs a regular solar PV installation.

What is Solarus hot water?

At Solarus we specialize in providing sustainable and renewable hot water solutions for your business. We understand the importance of reducing carbon emissions and protecting the environment for future generations.

Who is Solarus renewables AB?

Solarus Renewables AB is world leading in the development of photovoltaic thermal solar collectors (PVT). Solarus Renewables AB was founded in Sweden in 2017. Solarus Renewables AB is established with direct or indirect ownership in seven different companies in four countries Sweden, USA, The Netherlands and South Africa.

Solarus solutions collect up to 4 times more total energy from the same (roof) area, over any PV installation.
