

Solid state battery home Vatican City

Where does Pope Francis build a agrivoltaic plant?

With the Apostolic Letter "Fratello sole," issued motu proprio, Pope Francis provides for the construction of an agrivoltaic plant in the extraterritorial zone of Santa Maria in Galeria, where Vatican Radio maintains antennas for digital broadcasting. By Christopher Wells

Where is Vatican Radio located?

Located on the edge of Rome, the 424-hectare site houses the transmission facilities for Vatican Radio, thanks to a 1951 agreement between the Holy See and the Italian State. The new plant is intended to supply the energy needs of Vatican Radio and contribute to "the complete energy sustenance of Vatican City State."

Why did Pope Francis order an agrivoltaic plant in Santa Maria di Galeria?

By Christopher Wells Highlighting the need "to make a transition to a sustainable development model that reduces greenhouse gas emissions into the atmosphere, setting the goal of climate neutrality," Pope Francis has ordered the construction of an agrivoltaic plant within the extraterritorial zone of Santa Maria di Galeria.

Our goal is to accelerate the adoption of electrification in the energy markets at warp speed by massively deploying proven, mass-production available, solid-state, disruptive battery storage technologies. Amptricity(TM) is far superior to ...

Solid-state battery compositions will make batteries smaller and more energy dense. That means an EV can either go further with more batteries, or do the same range but be more lightweight and ...

Pope Francis has unveiled plans for a solar plant that will let the Vatican City generate all its electricity from renewable sources. With an area of 121 acres or 0.44km² and ...

The initial species present from the PEGDME/LPSCI materials changed significantly with sequential Li deposition steps; after only 5 min, the decomposition of LiFSI led to the growth of LiF (Figure 3a, F 1s) and Li x S y ...

In a suite of efforts, Pope Francis has now declared to the Vatican authorities to carry out the next step: to begin constructing a solar plant within the extraterritorial zone of Santa Maria di...

AIM-listed Ilika has recently reported a series of tests showing its Goliath solid-state cell battery prototype to be superior in terms of safety when compared to units already in ...

In a suite of efforts, Pope Francis has now declared to the Vatican authorities to carry out the next step: to begin constructing a solar plant within the extraterritorial zone of ...
