

Solplanet battery North Macedonia

Are solplanet 3-6k-s-g2 solar inverters a step in the right direction?

We are committed to making solar energy a realistic future for everyone, and we believe that our products are a step in the right direction. Solplanet's ASW 3-6K-S-G2 series of single phase inverters are designed to work with the latest generation of PV modules and are discreet and quiet, so they will not be an eyesore or disturb your peace.

Are solplanet solar inverters a good choice?

We see a solar future for homes and businesses worldwide. High-quality and award-winning, Solplanet's solar inverters are easy to install and user-friendly, making them the perfect choice for anyone looking to easily harness the power of the sun.

Why should you choose solplanet?

With our monitoring solutions, you will be able to control the performance of your photovoltaic system, manage the grid feed-in and recognize technical faults quickly. The power of the sun is the future of our planet. Solplanet makes solar for everybody. Easy-to-install, reliable and user-friendly inverters.

How does solplanet work?

Seamlessly monitor and manage your energy system remotely through the user-friendly Solplanet mobile application, allowing you to keep a close eye on the operation and maximize the yield of your solar installation. The modular design not only ensures scalability but also simplifies maintenance and upgrades.

How do I contact solplanet?

For any service or sales inquiries, please contact the dedicated Solplanet team in your region. Detailed contact information, including phone numbers and email addresses, for each of our worldwide offices is provided below. Our knowledgeable teams are ready to assist you with prompt and efficient service tailored to your geographical location.

How do I join solplanet?

Enter your email address to join our community of solar enthusiasts who are dedicated to keeping the sun shining on the solar energy sector. Our global presence ensures localized support to meet your specific needs. For any inquiries, please contact Solplanet in your region.

monitoring solutions

A lead-acid battery plant in Probištip in North Macedonia will cover 25% of its electricity needs from its new solar park of 8.4 MW on ten hectares and an additional rooftop photovoltaic system.

To suit any photovoltaic installation need, Solplanet offers a wide range of innovative solar inverters like single phase inverters, three phase inverters, connected monitoring devices, and EV chargers.

The Ai-HB 2.56LG series sets a new standard for high-voltage batteries, offering reliable and fully customizable energy storage for homes and businesses. With exceptional charge and discharge rates, its scalable design accommodates up to 25.6 kWh across 10 modules.

Single-phase all-in-one hybrid battery inverter with 400 to 1000 W output. A choice of 1.3 and 2.4 kWh integrated batteries provide base load power after sunset or can even reduce some costs during evening peak load times. Settings are easily made via the LCD screen or app.

Our global presence ensures localized support to meet your specific needs. For any service or sales inquiries, please contact the dedicated Solplanet team in your region. Detailed contact information, including phone numbers and email addresses, for each of our worldwide offices is provided below.

Energy Storage North America

Energy Storage North America

Solplanet offers a range of high-quality batteries and battery management systems (BMS) designed for efficient and reliable energy storage. Some benefits include. LFP Safe technology: Utilize Lithium Iron Phosphate (LFP) chemistry, known for its safety, long lifespan & exceptional thermal stability.
