Who is spirit energy?

CHALLENGE © Spirit Energy Limited 2024. All rights reserved We are an energy company with a portfolio and ambitions that span the breadth of the energy transition. We're continuing to break new ground, collaborating and thinking differently.

Where does spirit energy produce oil & gas?

Our experience stretches back 40 years, starting with the gas fields in Morecambe Bay, which remain a key part of our operations. Today, our UK teams produce oil and gas from operated and non-operated fields - from Morecambe CPC in the East Irish Sea to Cygnus in the southern North Sea. © Spirit Energy Limited 2024. What services does spirit energy provide?

Spirit Energy's offshore facilities and onshore terminal also provides gathering and processing services for third parties. Seven Seas is a single well subsea tie back which sits in block 48/7c in the Southern North Sea, approximately 60km from the East Yorkshire coast, in a water depth of 34m.

How is gas exported to West sole alpha?

Gas from the field is exported via an 8" pipeline, via the Newsham wellhead and onwards to West Sole Alpha, where a 16" gas export pipeline runs to the Dimlington onshore terminal. Production commenced in 2012. A side-track opportunity is under review to determine if the field life can be extended from 2021 to the late 2020s.

The CCUS industry has huge economic potential and could attract £100bn of investment into the UK by 2050, with an exportable value of £2.1bn per year by 2050 Low-Carbon Super Place Our ambition to create a future low-carbon ...
