In March this year, Kosovo has adopted its long-awaited new Energy Strategy, outlining key objectives and measures until 2031. From the strategy, it becomes clear that previous plans for expanding polluting, lignite-based capacities are finally shelved and that the country will focus on expanding renewable energy generation capacities instead.

Kosovo has one of the world's largest lignite-coal reserves and it remains dependent on two depreciated and inefficient Yugoslav-era power plants which do not meet Kosovo's energy needs. Electricity consumption and peak demand in Kosovo grew more than 90 percent between 2000 and 2010, stabilized from 2011 to 2018, but increased by another ...

The Millennium Challenge Foundation (MCC) of the US-Congress and it's Millennium Foundation Kosovo (MFK) the implementing entity of the \$49 million Threshold Agreement between Kosovo and the Millennium Challenge Corporation (MCC), has launched the 12th of November 2019 in Pristina a \$ 20.6 Million "Project: SEEK - Subsidies for Energy Efficiency in Kosovo.
