

The Sungrow 3-phase hybrid inverter recognizes the battery storage after installation and automatically integrates it into the system. The fine-tuned backup power system with state-of-the-art load control and a changeover time of less than 20 ms offers maximum reliability.

The SBR096 V13 Battery system is compact, light and has a capacity 9,6 kWh. A single person can install it. Just plug and play. The connection between modules is wiring-less. The set contains 3x Sungrow SBR Premium battery module 3.2 kWh V13 and 1x Sungrow Premium Battery Management System and accessories oling method: Natural convection ...

In addition to our industry-leading PV inverters and battery energy storage systems, Sungrow offers a complete range of solutions to support the operation and maintenance of these components, all within your budget.

SBR064 \* SBR096 SBR128 SBR160 SBR192 SBR224 SBR256 2 modules 3 modules 4 modules 5 modules 6 modules 7 modules 8 modules \* SBR064 consists of 2 battery modules and 1 empty module. \*\* Test conditions: 25 °C, 100 % depth of discharge (DOD), 0.2C charge & discharge.

Sungrow's SBR096, a high-performance and flexible energy storage solution. With its safest LFP cell chemistry and stackable design, it offers up to 25 kWh storage capacity. Experience easy installation, cable-less structure, and compatibility with Sungrow SHxxRT inverters.

SUNGROW SBR096 battery system is compact, lightweight. Capacity 9.6 kWh. One person can install. Just plug and play. The connection between the modules is wireless. The kit includes 3x Sungrow SBR Premium battery modules 3.2 kWh V13.2 and 1x Sungrow Premium battery management system.

SBR096/128/160/192/ 224/256 High Voltage LFP Battery Up to 30A continuous charging and discharging current with high efficiency Up to 100% usable energy HIGH-PERFORMANCE Lithium iron phosphate Battery Multi-stages protection design and extensive safety certification SAFETY Extendable during lifetime Support 3-8 modules per unit, max. 4 units
