

Who is sunovation?

Well-known, internationally operating architectural offices and construction companies rely on SUNOVATION's expertise in building integrated photovoltaics (BIPV). The world's largest BIPV projects in recent years have been realised by SUNOVATION.

What is sunovation eForm?

High-quality, uniformly colored photovoltaic glasses without visible PV technology. Convincing features. Glass-glass modules SUNOVATION eFORM are dimensioned and manufactured on a project-specific basis. Give free rein to your creativity; play around with geometries and dimensions.

What is sunovation eForm UniChrome?

SUNOVATION eFORM unichrome captivates through an absolutely homogeneous glass surface, which can be ideally integrated in the building shell. The glass-glass modules step back entirely and exude an optical calmness that is exceptional for solar modules. Perfectly suited for modern buildings that are ahead of their time.

Why should you choose sunovation?

To ensure the safe operation of the PV system in the immediate vicinity of high-voltage lines, SUNOVATION also drew on its many years of experience in the design of electrical PV generators.

Who made sunovation eForm modules?

The SUNOVATION eFORM unichrome modules installed in the facade and the semi-transparent glass-glass modules in the roof were sponsored and individually manufactured by module manufacturer SUNOVATION. Team MIMO developed a concept for resource-efficient redensification at SDE 21/22 according to their claim 'MINIMAL IMPACT - MAXIMUM OUTPUT (MIMO)'.

Who sponsored sunovation eForm clear?

The individually dimensioned photovoltaic modules SUNOVATION eFORM clear for the solar facade and solar roofing were sponsored by module manufacturer SUNOVATION. Team Local+ competed at SDE 21/22 with the vision "Local+ is more than just housing - we bring movement into your life".

Glass-glass modules SUNOVATION eFORM are dimensioned and manufactured on a project-specific basis. Give free rein to your creativity; play around with geometries and dimensions. SUNOVATION eFORM is available in countless ...

The abundance of sunlight, especially in the eastern and southern regions, offers a reliable supply of energy all year round. Ethiopia's foray into solar energy generation was sparked by this wealth of solar resources, ...

See also: Sunovation supplies stunning solar roof for Moscow. To this end, Sunovation is further expanding its organisation - particularly in the areas of sales and product development. By moving into new office space, ...

Elsenfeld, Februar 2022 - In Zusammenarbeit mit einem renommierten Farbhersteller hat SUNOVATION eine neuartige Farb-Beschichtung für Solarglas-Module entwickelt. Entstanden ist eine exklusiv bei SUNOVATION erhältliche ...

SUNOVATION eFORM unichrome is perfecting color solar modules for building integration. The employed photovoltaic-technology optically vanishes due to full-surface printing with UV-resistant and translucent special inks. The result is a ...

Sunovation - Building Integrated Photovoltaics - individually produced BIPV modules for pv-facades and roofs. Glass-glass-modules available in a huge variety of colors and different levels of transparency.
