

Does Sun Energy Invest in Thailand?

Our business unit, SUN Energy strengthens its positions in the generation of renewable energy electricity with a total of 17 Megawatt in Thailand. This is SUN Energy's first investment in Thailand and the second regional acquisition after Taiwan.

How to choose a solar energy company in Thailand?

As solar is becoming cheaper and more popular, choosing among the many solar energy companies in Thailand is getting harder, especially so as each installer may offer you different packages, services and energy solutions. Finding the right solar installer for your roof is important in ensuring a hassle-free installation that you are satisfied with.

Does Thailand have a good solar potential?

Thailand has great solar potential, especially the southern and northern parts of the northeastern region of Udon Thani Province and certain areas in the central region. Around 14.3% of the country has a daily solar exposure of around 19-20 MJ/m²/day, while another 50% of the country gains around 18-19 MJ/m²/day.

How much solar power does Thailand have?

Solar power in Thailand is targeted to reach 6,000 MW by 2036. In 2013 installed photovoltaic capacity nearly doubled and reached 704 MW by the end of the year. At the end of 2015, with a total capacity of 2,500-2,800 MW, Thailand has more solar power capacity than all the rest of Southeast Asia combined.
