

The solar panel Yemen

Why are people moving to solar power in Yemen?

The migration to solar power is part of what researchers say is an energy revolution in the country of 28 million, where the electric grid has been decimated by fighting. More than 50 percent of Yemeni households rely on the sun as their main source of energy, and solar arrays power everything from shops to schools to hospitals.

What is the Solar Power Revolution in Yemen?

The solar power revolution in Yemen has clearly saved lives-- it has, for example, powered hospitals and medical clinics. It has also transformed lives.

Is solar power the main source of energy for Yemeni households?

According to the EADP, which focuses on access to clean and affordable energy, solar power went from being a niche product, used in just a few households in 2012, to the main source of energy for Yemeni households.

Is solar power a lifeline in Yemen?

"For many in Yemen, especially for farmers, solar power has been a lifeline," says Matt Leonard, who specializes in microfinance with IFC. "The key now is to scale up its use." Yemen has long been the poorest country in the Middle East and North Africa, but a conflict that broke out in 2014 has pushed the country to the brink.

Can solar power save Yemeni rials?

Farmer Mohamed Ahmad Sid El Rassam can attest to those benefits. He built a solar-powered water pump on his land in the region of Beni Hocheich. The setup chopped his diesel use by more than 85 percent, saving him 17 million Yemeni rials (\$68,000) a year.

Why are Yemen's solar panels so popular?

Secondly, there had been huge growth in use of solar panels in the country. And thirdly, statistics from Yemen officials suggested that, in 2019, there was a large increase in local agriculture after a serious decrease due to the war. The assumption was that people were watering their crops more.

Yemen's solar revolution Energy poverty in Yemen - even before the war 2 Therefore, and officially at the request of President Hadi, a coalition of ten states-led by Saudi Arabia and the UAE-has launched a large-scale military intervention against the rebels. The coalition uses airstrikes in the north but has also ground troops in the south.
