

Trinidad and Tobago electric solar battery

Is Trinidad ready for more solar power?

Every person involved in the process has certified solar installation training. Didn't know that was a thing in Trinidad, right? We're definitely ready for more solar power to make a better, more eco-friendly and sustainable world for us all. We understand that solar power is a bit more expensive than other power systems.

What is electricity generation in Trinidad & Tobago?

Electric Power Generation In Trinidad and Tobago (T&T), electricity generation primarily uses natural gas as the fuel source. The power generation technology used are simple cycle gas turbines and combined cycle gas turbines with heat recovery steam generators.

How much does electricity cost in Trinidad and Tobago?

The cost of electricity in Trinidad and Tobago is around \$0.05 per kWh. This relatively low cost can be attributed to the country's abundant gas resources and a subsidy on electricity.
