## Türkiye clean energy b v

Washington, DC -Today, the governing board of the Climate Investment Funds signed off on a landmark \$70 million investment plan for Türkiye, set to boost the country"s power transmission system, mobilize an additional \$1 billion in climate finance, and help realize one of the most ambitious clean energy scale-ups in the world 2035, the ...

Over the past decade, Türkiye has more than tripled its renewable energy production, has announced an ambitious objective of adding an additional 60GW of wind and solar by 2035, aligned with Türkiye"s pledge to become carbon neutral by 2053.

For instance, considering clean energy resources, Türkiye is above the world average in terms of important electricity production methods such as solar, wind, geothermal and hydro energy. These are very significant steps for the country and are accomplished in ...

Türkiye possesses diverse biomass resources, well-suited for electricity generation. By comprehensive data collection, we projected the long-term potential of each biomass type and assessed its contribution to the country"s clean energy goals.

Türkiye"s wind energy sector, currently valued at \$2.2 billion, could expand to \$7.5-8 billion by 2035 with continued support, according to Ibrahim Erden, president of the ...

renewable energy by 2035, including by enabling flexibility of energy systems and smooth integration of higher shares of variable renewable energy generation in Türkiye"s grid. Through the Clean Technology Fund, CIF will provide \$70 million in funding, which is expected to mobilize over \$1 billion in co-financing from partner

Hydro dams have been the main source of Türkiye"s clean power this year, with output rising by 37% from the same period in 2023 to the highest since 2020. ... Türkiye"s power firms may be ...

Türkiye"s position in global supply chains are continuing to grow and we are committed to turn net-zero into a wave of opportunities in an inclusive manner for the environment, for the people, for companies seeking cleaner energy solutions and for the wider energy ecosystem of our region.

6 ???· Investment Office presented Türkiye"s renewable energy growth targets for 2035 and its plans for the clean energy transition to Dutch sector representatives at an exclusive event in Amsterdam titled "Renewable Energy Opportunities for European Partners", part of its investment roadshow covering the UK, Germany, the Netherlands, and France.
