

Solar power has a small but growing role in electricity production in the United Kingdom.. There were few installations until 2010, when the UK government mandated subsidies in the form of a feed-in tariff (FIT), paid for by all electricity consumers. In the following years the cost of photovoltaic (PV) panels fell, [1] and the FIT rates for new installations were reduced in stages ...

Alternergy is a UK award-winning renewables wholesaler and distributor of Solar PV products and Battery Storage solutions. We supply a large portfolio of solar panels, inverters, mounting and EV chargers.

Solar energy is fast becoming a primary source of global power. The International Energy Agency (IEA) predicts that installed solar will overtake other forms of energy, apart from gas, by 2040. Even in the short term, the IEA forecasts that renewable energy will grow at 50% per annum over the next 5 years, of which 60% is attributed to solar.
