

Ups energy storage Namibia

What services do we provide in Namibia?

We supply generators, INVT UPS applications and general electricity backup solutions to all sectors of the economy in Namibia. We cater for various bulk water storage applications to all sectors in the economy. We specialize in sectional steel tanks - either ground level or elevated.

Why do we offer innovative products & services in Namibia?

Innovative products and services are offered to provide a long-term reliable and sustainable solution in Namibia's harsh weather and geographical condition.

Are water tanks transforming Namibia's water infrastructure?

In a recent article, the Economics highlights the vital role of water tanks in transforming Namibia's water infrastructure for business and industry. It emphasizes the significance of reliable water storage for sustainable development and economic growth, with Abeco Tanks as a leading provider in this domain.

Key contracts have been signed for the first-ever grid-scale battery storage project in Namibia, signifying the African country's dedication to modernising its energy infrastructure, according to a top local official.

WINDHOEK, Dec. 13 (Xinhua) -- Namibia's power utility, NamPower, on Wednesday signed an agreement with two Chinese companies for the development of the country's first 54MW/54MWh utility-scale Battery Energy Storage System (BESS). The projected BESS enables electricity to be stored and dispatched when required.

The Erongo Battery Energy Storage System, also Erongo BESS, is a planned 58 MW (78,000 hp) battery energy storage system installation in Namibia. The BESS, the first of its kind in the country and in the Southern African region, will be capable of ...

MARSRIVA - Solar Inverter / Battery / Energy Storage System / UPS System_Light up the world with MARSRIVA products-Solar Inverter, Battery, UPS System.etc. Whenever and wherever you need, choose MARSRIVA and keep the life power on.

The UPS configuration from INVT are reliable power solutions with better serviceability and energy-saving performance. Energy storage for banks, telecommunication industry, IT and cloud computing data centers are available.

A joint venture (JV) between the two Chinese companies will deliver the 54MW/54MWh Ombuu battery energy storage system (BESS) project in Namibia's Erongo Region, at the existing Omburu Substation. Construction ...

Ups energy storage Namibia

Namibia's planned new battery storage system brings it closer to reaching its green-energy goal. Its Renewable Energy Policy aims to modernise the energy sector, make it more self-reliant and turn it into a net exporter of power.

The collaborative effort is aimed at spearheading the development of the country's inaugural 54 MW/54 MWh utility-scale Battery Energy Storage System (BESS). The BESS represents a monumental advancement enabling the storage and timely distribution of electricity as per demand, an essential innovation in the country's energy infrastructure.

Namibia's planned new battery storage system brings it closer to reaching its green-energy goal. Its Renewable Energy Policy aims to modernise the energy sector, make it more self-reliant and turn it into a net ...

A joint venture (JV) between the two Chinese companies will deliver the 54MW/54MWh Ombuu battery energy storage system (BESS) project in Namibia's Erongo Region, at the existing Omburu Substation. Construction is expected to take around 18 months for the project to come online in the latter part of 2025.

The Energydock Mobile UPS "Plug and Play" unit from Specialized Solar Systems is designed for convenience and user-friendly functionality. This unit features a low frequency 3 kVA Victron Multiplus II inverter/charger (NERSA approved) and a 3.072 kWh lithium iron phosphate (LiFePO₄) battery, together with a Smart BMS (with colour screen ...
