

PDF | On Jun 1, 2022, Ibrahim AL-wesabi and others published A review of Yemen's current energy situation, challenges, strategies, and prospects for using renewable energy systems | Find,...

Yemen is experiencing a severe shortage of several gigawatts of electricity, according to the Yemen Public Electricity Corporation (YPEC), which is a semi-independent arm of the Yemen Ministry of Electricity and Energy (YMEE) (World Bank 2009).

Within a few years, solar energy in Yemen has increased its capacity by 50 times and has recently become the primary source of electricity for most Yemenis. Furthermore, the paper discusses the difficulties and challenges that face the implementation of renewable energy investment projects.
